

**GUIDE SIGNATURE:**

**MONTHLY ASSESSMENT -III (Detail Design, Prototype and Test phase)**

**(This assessment shall be done by another guide of department or interdepartmentally along with guide)**

1. **Which theoretical subjects/concepts are involved with your project? How it is useful to your project?**

---

There are so many Theoretical aspects but main concept which is involved in our project is web development. For that we need knowledge of many theoretical subject like html,css,javascript or ReactJs for front end and NodeJs for back end etc.

---

2. **Which software/design tool/Skills you have learned/applied during the project? Explain the features of it.**

---

We have use Figma for making prototype of our project and for making UI Of our project we will going to use VsCode which is IDE for development Figma is a software in which we can design our UI of our application we can Add all the component which we want in Figma.

---

3. **Explain the prototype/model prepared by the student/team.**

We have prepared prototype using Figma software. In this we have add some feature which is our project. We have prepare a UI of the website Which we will prepare in future. Here, we have add many component In prototype. There we have made different pages for each section like Home,Tournament,Profile etc.

4. **What are the materials, technology, things have utilized to make the prototype/model?**

For making our prototype we have use a UI Design technology with the help of Figma Software in which we have built UI of our project.

**5. How many Iterations have you done to reach final solution? Explain modification/revise parameters/characteristics for each iteration.**

We have done one iterations to reach final solution that is Responsiveness. There we only have UI for desktop size monitor earlier. Then from one of the observer suggested to make a responsive UI.

**6. What is the scope of the project? How you are planning to implement it in future?**

In this era all the Young ager are attracted towards the game and they have started following the E-sports also so to provide a platform for that and for entertainment purpose this project may have a big impact.

**SUGESTIONS BY EVALUATOR:**

PROTOTYPE/MODEL SUGGESTIONS:

GENERAL SUGESTIONS:

Overall Mark, considering assessment I & II (Out of 10):

**Department/Interdepartmental Evaluator name and sign:**

**Guide sign:**

**Date:**

**FINAL ASSESSMENT AT THE END OF SEMESTER**

**EVALUATOR MEMBERS DETAILS:**
